MARINE OFFSHORE SERVICES

## **SMOKING POLICY**

The Company recognizes that uncontrolled smoking of cigarettes is a fire hazard and also harmful to health of smokers and non-smokers through passive smoking. It is the company's objective to prevent fire incidents, maintain good health for all individuals and discourage smoking on board and in office premises under the company's control.

To achieve the above objective, the company's policy is as follows:

- Smoking is ONLY ALLOWED in the following areas when vessels are operating outside the 500m restricted zone:
  - The perimeter outside the wheel house.
  - Area on main deck just aft of accommodation, area to be clearly identified by painting on deck.
  - Within the accommodation, provided that that is a designated area provided by the company. Master are to send plan for the area selected onboard as a designated smoking area to the company for approval.
- When operating within the 500m restricted zone smoking is strictly prohibited in all locations other than the accommodation. This designated smoking area within the accommodation shall be approved by the company. Masters send the plan for the area selected onboard as a designated smoking area to the company for approval.
- Non-designated areas in shore office:
  - Within all rooms
  - Enclosed office space
  - As per the legislation of Indonesia
- Office Premises:  
Smoking is only allowed in designated smoking area. Designated smoking area's should have adequate ventilation system i.e., blower, etc.
